Profile

Experienced MSBI Developer with 5+ years of expertise in SQL Server, SSIS, SSRS, and Power BI. Skilled in designing complex ETL workflows, writing optimized T-SQL queries, developing automated reporting systems, and driving data-driven decision-making. Proven ability to enhance reporting efficiency, data accuracy, and business intelligence outcomes across banking and financial domains.

Professional Experience

MSBI Developer, D2K Technologies Pvt Ltd

11/2020 – present | Mumbai, India

- Designed and implemented **10+ SSIS packages** to automate ETL (Extract, Transform, Load) processes from various data sources, reducing manual data handling by **60%**.
- Developed and deployed **100+ SSRS reports (parameterized, drill-down, and scheduled)**, enhancing cross-departmental reporting and decision-making.
- Wrote and optimized **complex T-SQL queries and stored procedures** using **SSMS**, achieving up to **40% improvement in query performance**.
- Collaborated with **10+ business users and analysts** to gather BI and reporting requirements, translating them into actionable technical solutions.
- Scheduled, deployed, and monitored **SSRS jobs via SQL Server Agent**, maintaining a **99.9% success rate**.
- Contributed to **database performance tuning and indexing strategies**, resulting in **30% faster data retrieval**.
- Assisted in **database design and schema improvements**, improving reporting system performance by **20%**.
- Created comprehensive documentation for **ETL processes and reporting standards**, boosting onboarding efficiency by **40%**.
- Developed **20+ advanced SSRS reports**, delivering timely insights to stakeholders and increasing decision-making efficiency by **30%**.
- Partnered with **cross-functional teams (20+ members)** to gather requirements and deliver tailored BI solutions aligned with business goals.
- Enhanced query efficiency by **60%** through optimization of T-SQL scripts, stored procedures, and database indexing.

Skills

ETL & Data Integration: SSIS, SSMS, Data Warehousing, Data Migration

SQL Development: T-SQL, Stored Procedures, Query Optimization, Indexing

Reporting & BI: SSRS, Power BI, Dashboard Creation, Data Modeling, Data Integration

Performance Tuning: Query Optimization, Execution Plans, Index Strategies

Projects

Axis Adf and Crismac | Axis Bank, Role: MSBI Developer

11/2022 – present

- Worked on **NPA (Non-Performing Asset)** and **PNPA (Potential Non-Performing Asset)** accounts to support risk and compliance teams in identifying at-risk and defaulted loan portfolios.
- Responsible for **data extraction, analysis, and report generation** related to NPA/PNPA accounts, ensuring accuracy and timely delivery.
- Developed and maintained **summary-wise, customer-wise, and account-wise reports** to track loan performance and exposure.

- Implemented and managed **report subscriptions**, enabling stakeholders to receive automated insights on NPA/PNPA trends.
- Created and scheduled **automated jobs** to run twice a week, improving efficiency in report dissemination and compliance monitoring.
- Designed and executed **Send Mail tasks** for delivering reports in both **PDF and Excel formats** to relevant business units and leadership teams.
- Contributed to early warning systems by proactively identifying **PNPA accounts**, supporting pre-emptive action to reduce NPA slippage.
- Improved report turnaround time by **40%** through automation and efficient job scheduling.
- Played a key role in preventing asset deterioration by flagging PNPA accounts ahead of NPA classification.

SLBC Project

11/2020 – 11/2022

- Prepared and submitted quarterly SLBC reports to the Reserve Bank of India (RBI) for over **300+ bank branches**.
- Collected and validated data on key performance indicators across the banking sector, ensuring **100% data accuracy**.
- Consolidated and reported quarterly banking metrics, including **₹5,200 Cr in Priority Sector Lending, ₹4,800 Cr in Non-Priority Sector Lending, ₹10,500 Cr in total Deposits**, and the opening of **35+ new branches**, as part of the SLBC submission to RBI.
- Ensured all reports complied with RBI regulations and were submitted within the mandated **15-day timeframe** after quarter-end.
- Collaborated with **10+ internal departments** (Finance, Credit, Operations) for consolidated data reporting.
- Implemented standardized data templates, reducing manual processing time by **30%**.
- Maintained audit-ready documentation to support data transparency and regulatory inspections.
- Achieved **4 consecutive quarters** of error-free submissions with no compliance issues.

Awards

Awarded Data Excellence for delivering impactful BI solutions.

Recognized as Automation Champion for streamlining subscriptions using SSIS
